Location: #1

## Soil Test Results:

pH:	6.9
OM:	2.9 %
P:	20 ppm
K:	148 ppm

## LAWN RECOMMENDATIONS

LIME: None Required

FERTILIZER: Apply as follows - See Note 1 below:

April -- 1st week

15 lbs/1000 square feet of either 10-10-10; 12-12-12; or a similar fertilizer.

May -- 3rd or 4th week

3 lbs/1000 square feet of either 27-3-3; 34-4-4; or a similar fertilizer.

July -- 1st week

(optional: 3 lbs/1000 square feet of either 27-3-3, 34-4-4; or a similar fertilizer if lawn is regularly watered during summer.)

September -- 1st or 2nd week

15 lbs/1000 square feet of either 10-10-10; 12-12-12; or a similar fertilizer.

**NOTES:** 1. If any of the fertilizers used contain pest control chemicals (weed, insect, etc.), you must follow instructions given on bag.

1 pound of fertilizer equals about 2 1/4 cups

1 pound of limestone equals about 1 1/2 cups

COMMENTS:

SOIL TEST INTERPRETATION - LAWNS:

<u>Soil Test</u>	<u>Desired Levels</u>
pH (soil acidity)	6.0 - 7.5
om (soil organic matter)	greater than 1.5 %
P (soil phosphorus)	30 - 40 ppm
K (soil potassium)	90 - 240 ppm

ppm = parts per million
